

Local High School Graduates Receive Thousands of Dollars in Scholarships

Continuing education is important and since its inception, the OCEC Electric Education Foundation has assisted hundreds of students in attending college or vocational/technical school in New Mexico. The program began in 1989 and to date \$915,850 has been awarded to local graduates to aid in their pursuit of a degree or certificate.

This year's scholarship will be \$1,000 per semester per student and is renewable for up to eight semesters if the student meets the required criteria, for a total award of \$8,000.
